each haynes manual is based on a complete teardown and rebuild of the specific vehicle features hundreds of hands on photographs taken of specific repair procedures in progress includes a full chapter on scheduled owner maintenance and devotes a full chapter to emissions systems wiring diagrams are featured throughout

think about how we know about past events in human history e g the expansion of the roman empire or the american revolution what types of records document those events now think about earth s history specifically the past environmental or climatic conditions at times before recorded human history what records might there be of such conditions make a list of your ideas n assemblage of five major types of natural archives of earth s environmental and climatic history

what common feature s do each of these paleoclimate archives share an assemblage of 5 major types of natural records or archives of earth s environmental and climatic history just like a diary or other historical document the layers in these natural archives contain indirect evidence i e proxies about past conditions and events recorded in a sequential order the evidence is specific to a certain time period and may be general or very detailed depending on the rate that information was recorded the faster the rate at which the recorder grew trees and corals accumulated snow and ice or was deposited sedimentary sequences the more detailed the record is and the higher its resolution for example a record in which an annual signal can observed has a very high resolution in contrast if the finest observable details are on the order of a million years then that record would have a low resolution
